Subject: appreciation

M'Dear Dr. Tran,

I think of you just about every day.
Whenever I look in the mirror .
Whenever people are shocked after I proudly lay claim to my seventy-two years.

But perhaps more importantly, when I remember the quality of your humanity.

You are without a doubt the most *human* Medical Practitioner I have yet to encounter.

It always made me feel good to be around you.

Your good humor and your relaxed and honest manner are rare and exemplary.

You are welcome to use these comments on your website if you care to do so.

And aside from that.... I would like to invite you to visit me in one of the most interesting, beautiful and historic places on earth.

Look at my websites below, especially www.machupicchu.us.com .The prices listed don't apply. I'm inviting you and your wife out of friendship and appreciation.

Best Regards,

Richard Nisbet

Cusco, Peru
